TECHNICAL SPECIFICATIONS

Stainless steel 1.4301 / X5CrNi18-10
Material number: 1.4301

All measures, weights and loads as indicated in this data sheet are approximate figures. We can not assume liability for any special applications as well as damage resulting from improper assembly or use, a corresponding suitability test must always be carried out by the customer.

INSTALLATION

Apply with a suitable notched trowel the tile adhesive to area to be tiled. Press in and align the listelli profile in the damp tile adhesive, then press the tile firmly into the adhesive bed and align it correctly.

DELIVERY FORM

The profiles are available in widths:
25; 40 mm
depending on the surface (see catalog).

The profiles are available in heights:
6 mm
depending on the surface (see catalog).

The profiles are available in lengths:
250 cm
depending on the surface (see catalog).

SURFACES

Brushed (240K), polished, check pattern

PACKING UNIT

PU 1 = 10 pcs, PU 2 = 50 pcs, PU 3 = 150 pcs

PROCESSING, CARE, CLEANING

A good ventilation should be established after the installation. Do not allow the mortar or grout to dry on the surface of the profile, use clean water and a cloth to remove any residual material. The profiles are cleaned with a damp cloth and pH-neutral cleaning agents. Stubborn dirt on the profiles can also be removed with solvents.

MATERIAL PROPERTIES

Stainless steel listelli profiles are suitable on both indoor and outdoor areas and can bear medium to high mechanical solicitations. The material has a high tolerance and endurance to chemicals. Stainless steel ensures excellent resistance to corrosion, so it is ideal in the food, chemical, hospital and high transit areas.

STORAGE AND TRANSPORT

The profiles must be protected against external and environmental threats.

DISPOSAL

The profiles can be delivered to authorized steel recycling centers.

SPECIAL NOTE

Warranty and disclaimer

The application examples and tips shown in this data sheet and on our website are guidelines based on conventional crafting techniques. All information, including product-related information is standard. The author excludes any warranty for the information given in the data sheet and on the website. For the usability of products for specific purposes and for the occurrence of damage or the occurrence of defects by the information or tips given here, no warranty is also accepted. Errors, misprints and technical changes - as far as they serve the progress - reserved. Photos and illustrations are not binding. No liability for printing and image defects. Imitation and reprinting, even in part, is not permitted.
