## EXPANSION JOINT PROFILES

---

**Discreet appearance despite strong effect. Laminate expansion joints with alferpro profiles.**

Expansion joints are for compensating floor tensions in large areas, especially in public or commercial spaces and alferflex is a functional solution which prevents cracks in the flooring. In order to keep the continuous appearance of a surface with as little disturbance as possible, we have designed very slim expansion joint profiles.

## EXPANSION JOINT PROFILES

### Application expansion joint profile

alferflex – The expansion joint profiles were designed for thin-bed laying with very high mechanical loads and provide lasting protection against stress cracking.
