

# alferquad

## SQUARE EDGE PROFILES

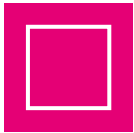

---

**For modernists who like to set a trend.**

The high quality profiles not only protect the edges of the covering, they frame it. A more restrained detail for purists who prefer a clear and objective design. Whether as a closure or discreet border, alferquad feels at home in any modern architecture. The square edged profile is suitable for tile coverings starting at 4.5mm.

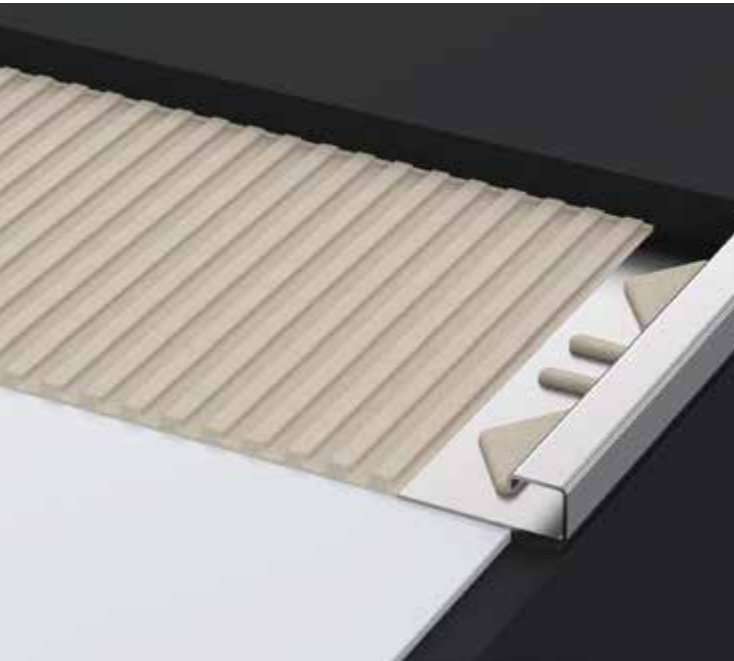

# alferquadr

## SQUARE EDGE PROFILES

### Application square edge profile

alferquadr – The profile forms with its visible surfaces a distinctive rectangular outside corner. The accurate laying is done directly using the tile adhesive.

### STAINLESS STEEL V2A
